Ahnaf Shikder Arnob

Front-End Developer | Shopify Developer

ahnafshikder311@gmail.com | +880 1976821149 | github.com/ahnaf31 | Uttara, Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Front-end developer with 2+ years of professional Shopify experience, including remote work for a US-based digital agency. Specialised in custom Shopify section and template development using Liquid, HTML, CSS and JavaScript, with additional expertise in Metafields and Metaobjects, Shopify Flow and WCAG 2.1 accessibility compliance. Brings first-hand e-commerce operating experience from building and running his own online ventures, covering sourcing, store management, content and digital and affiliate marketing. Co-founder of a digital solutions agency, started with friends after an early role in digital marketing.

CORE SKILLS

- **Shopify & front-end:** Shopify theme development (Liquid, HTML, CSS, JavaScript), custom section and template development, Metafields and Metaobjects, JSON templates, Shopify Flow, Shopify CLI, e-commerce site management
- **Tools & workflow:** GitHub and version control, Basecamp, BugHerd
- **Accessibility:** WCAG 2.1 / ADA compliance, manual and automated accessibility audits, ARIA labelling, keyboard navigation and focus order
- **Marketing & e-commerce:** Digital marketing, affiliate marketing, social media marketing, Facebook and Pinterest advertising, LinkedIn outreach and lead generation, landing page creation

PROFESSIONAL EXPERIENCE

Co-founder | Scopioe (scopioe.com) | *After Aggressive ROI - Present*

- Co-founded Scopioe with friends after Aggressive ROI, as a digital solutions agency offering website development, UI/UX design and mobile application services.

Front-End Developer | Coalition Technologies, Remote (US-based digital agency) | *July 2025 - June 2026*

- Built and customised Shopify sections and templates using Liquid, HTML, CSS and JavaScript to meet client-specific design and functionality requirements.
- Developed and managed Shopify Metafields and Metaobjects to support dynamic product page content across multiple storefronts.
- Created and maintained JSON templates for flexible page-level customisation within the Shopify theme architecture.
- Implemented Shopify Flow automations to streamline store operations and business logic without custom app dependencies.
- Conducted manual and automated ADA accessibility audits and applied WCAG 2.1 compliant fixes, including ARIA labelling, keyboard navigation, focus order and colour contrast corrections.
- Used Shopify CLI for local theme development and managed version control through GitHub, following team-based branching and review workflows.
- Tracked tasks, client feedback and project progress using Basecamp and BugHerd across multiple concurrent client projects.

Founder / COO | Shahnaf Co - organic products startup, Bangladesh | *One year, before Coalition Technologies*

- Built an organic products startup from scratch before joining Coalition Technologies, managing product sourcing, day-to-day operations and budgets.
- Built and maintained the business website, product pages and social media content, and ran digital and affiliate marketing to drive traffic and sales.
- Developed Tawaqqal Farm, the farm venture under Shahnaf Co, and Furrybari, content covering animals through to organic products.
- Ran the POD and organic shop ventures for one year before Coalition Technologies; the organic venture did not become commercially successful, and the experience grounded later client work in how online stores operate in practice.

Digital Marketing Executive | Aggressive ROI | *January 2023 - June 2023*

- Developed and implemented digital marketing strategies for international clients.
- Managed online marketing campaigns across social media, email and search engines, and analysed and optimised campaign performance using data-driven insights.
- Engaged with clients to gather requirements and formulate tailored campaign strategies.
- Managed LinkedIn outreach for clients, overseeing profile management and generating leads for international clients.

Shopify Developer | Affiliate Marketer | Fiverr and Adcombo Marketplace | *2019 - 2023*

- Designed and developed custom Shopify storefronts for clients across dropshipping and e-commerce niches using Liquid, HTML, CSS and JavaScript.
- Built custom sections and theme customisations to match client branding without relying on paid apps.
- Optimised store performance, including page speed, mobile responsiveness and user experience improvements, to improve conversion rates.
- Set up and configured product pages, collections, navigation and checkout flows tailored to individual business needs.
- Managed end-to-end client communication, requirement gathering and project delivery independently through freelance platforms.

SELECTED PROJECTS

Getsure Goods | Shopify dropshipping store - separate client (not Coalition Technologies)

- Built a custom product template for the Getsure Goods dropshipping site.

AnimaxBd | Print-on-demand project, Bangladesh | *Before Coalition Technologies*

- Print-on-demand project for the anime-lover community in Bangladesh, with the Facebook page, products and content managed as part of self-employed e-commerce work in the local market, including sourcing, the website and social media pages.

EDUCATION

BSc in Computer Science and Software Engineering - American International University-Bangladesh (AIUB), 2018 - 2023, CGPA 3.44 out of 4.00

LANGUAGES

Bengali (native) | English (good command, speaking and writing)
